

On September 8, Da Nang civil and industrial construction investment project management board said that from September 5 to 25, the Project Management Board issued bidding documents for the package "Construction of building blocks and technical infrastructure outside of the building".

This is the main construction and installation package of Software Park No.2 project (phase 1). The bidding package has an estimated price of over VND 629 billion, and the selection of contractors is through open bidding in the country, not online bidding.

Bid floor value is 21.7 billion VND with contract execution time of 720 days. It is known that the entire project of Software Park No. 2 has a total investment of nearly 800 billion VND from the city budget. The project will be completed in 2023 and currently, 14 bidding packages under the project have been approved by the City People's Committee on contractor selection plan.
